## **EASY INSTALLATION**

1. Dry the object before applying tape.
2. Peel liner away from silicone tape.
3. Place the side of the tape that was touching the liner against the surface of the object.
4. Press tape firmly on object being wrapped, hold in place & begin first by wrapping completely over itself.
5. While holding tape in place, begin stretching at 2 to 3 times its length & wrap object with a 2/3rd overlap to ensure proper seal.
6. To complete wrapping of object, wrap tape completely over previous layer & press firmly. Cut with scissors or knife.
