

Simply place the cables in the zip tool, then pull the zip tool down along the length of the Zipper.

The cables then transfer from the tool into the length of Zipper, to provide an incredibly quick and easy way to neatly organise several cables. The cut-outs along the length enable the Zipper to bend in tight radii.

- Ideal to conceal & protect longer runs of cables
- Quick and easy to use - scissor cut to length; insert cables in zip tool; put zip tool in to length; pull zip tool along length
- Flexible design and good resistance to oils/lubricants, acids & alkalis - suitable for use around plant and machinery too
- Zip tool included in pack
- Operating temperature -30°C to +85°C

Produced from	Polypropelene	
Cavity size	20mm diameter - Expands around bundles of cables up to 20mm diameter 25mm diameter - Expands around bundles of cables up to 25mm diameter	
Self-adhesive backing	For clean, dry, smooth surfaces Press firmly to stick Check suitability of product and surface	
Available colours	Black or White	
Dimensions	2.5m length 10m length	
Weight	20mm diameter/2.5m Length	0.16kg (packed)
	20mm diameter/10m Length	0.90kg (packed)
	25mm diameter/2.5m Length	0.22kg (packed)
	25mm diameter/10m Length	1.12kg (packed)
Packaging	2.5m Lengths - Polythene bag and header card 10m Lengths - Polythene bag and header card packed in cardboard box
