Australian Standard AS3786:2014

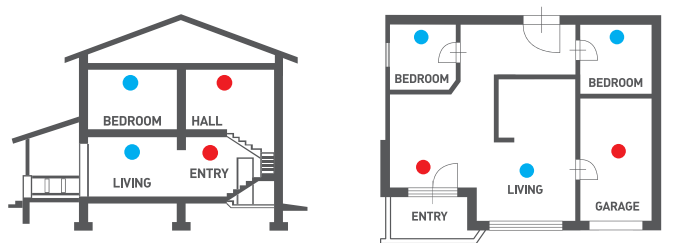

PHOTOELECTRIC SMOKE ALARM

VALUE 6 PACK

HOW MANY SMOKE ALARMS?

Fire authorities recommend smoke alarms in each bedroom, corridors and hallways that lead to exits, and in living areas and at least one per floor as a minimum. The more smoke alarms in your home, the safer it is. For maximum protection install one smoke alarm in each room.

- Smoke alarms for MINIMUM protection
- Photoelectric smoke alarms for additional protection
