

# FIX-A-SINK™

## SINK BASKET WASTE 90MM (3.5") X 50MM (2")

- ✓ STANDARD TAIL TO SUIT MOST FULL SIZE SINKS WITH 90MM (3.5") SINK HOLES & 50MM (2") TRAPS
- ✓ PROTECTS YOUR DRAIN FROM DEBRIS TO PREVENT CLOGS
- ✓ STAINLESS STEEL FOR EASE OF CLEANING & IMPROVED HYGIENE

### EASY INSTALLATION

1. Unscrew the trap nut underneath the sink & remove the old sink waste.
2. Your new sink basket waste comes fully assembled. You will need to disassemble it.
3. Take the new sink basket waste from the packaging, remove the strainer from the assembled product, then unscrew the fixing bolt with a large flathead screwdriver until the stainless steel housing can be removed from the white plastic housing.
4. Place the thick rubber washer between the plastic housing & the sink, then connect the plastic housing to the trap & screw-on the trap nut. Hand tighten.
5. Insert the thin foam washer into the sink waste basket recess then place the stainless steel housing onto the foam washer so that both items are flush to the sink.
6. Screw the fixing bolt through the stainless steel housing into the plastic housing & tighten with large flathead screwdriver.
7. Insert the strainer into the stainless steel housing.
8. Turn on the tap & check for leaks.
