

## EASY INSTALLATION

1. Turn off water at mains.
2. Unscrew old tap.
3. Clean threads & apply new thread seal tape.
4. Screw in the new Tap 'N' Snap® tap.
5. Turn on water & check for leaks.

We recommend using a licensed plumber.  
Scan the code to find a plumber in your area.

## HANDY HINT

We recommend FIX-A-TAP® blue thread seal tape for a watertight seal: #208392. Periodically replace the snap-on o-ring: size 9: #207098 & apply waterproof lubricant: #217271.
